"EXECUTIVE"

make it easy.

Manage, Track, Analyze and Monitor your inventory.

Introduction

Hello, My name is Mayank Ratre and I am studying in class 10th , I am enjoying learning coding since 2019 with WhitehatJR and still continuing my coding.

Now I am certified app and game developer, the teachers and mentors are very knowledge full and supportive, That's why I am able to learn advance level of coding very easily.

Problem

Some problems our company
observes in the world.

0 1

Local Shopkeepers find difficulty
to manage their inventory.

0 2

Regular out listing of expired product.

0 3

Expensive software for managing
inventory.
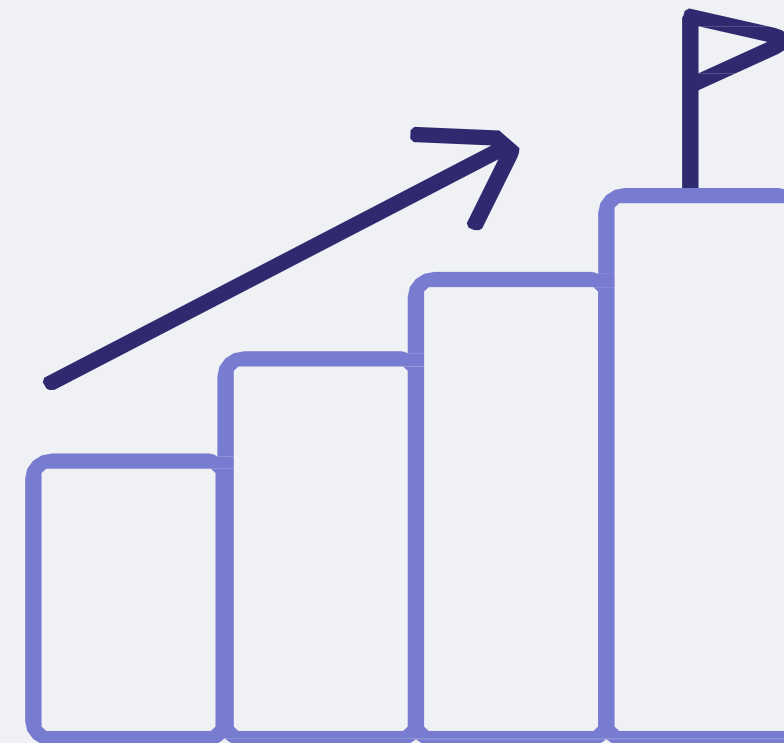

01

User friendly application.

02

Manages, Tracks the users
inventory.

03

Our application is free of cost which
contains "0" Ads.

Solution

Some ways our company
proposes to solve them.

How it Works

The main purpose of making the app is to save time and money of the user through analysing, tracking and monitoring of the products and to manage inventory easily.

Pricing

₹ 0

FREE

The Motivation behind choosing to make this kind application through an incident happened with me, In brief I have purchased some snacks from local vender which was near to expire.

Then I thought of making an application which notifies the user whether the product is going to expire or not, also it will track and monitor inventory which is going to benefit both the shopkeepers and the customers.

Security ?

Our application is completely secured due the tech used in making the app like, OTP verification, reCAPTCHA, Email Verification, Firebase and Google Auth.

"I love this product. What a
        timesaver!"
- Anurag

"This product changes the game for real."
- Ajay Thakur

Proof

"Why have I not heard about this before?"
- Bhavya Mandal

Our customer testimonials, case
studies, expert quotes,
competitive advantages, and any
other extra benefits that make
our product or service worth
trusting!

"Amazing concept, it is very useful
        application!"
- Priti Ramchandran

What's Happening Next

This application is going to benefit all businessmen, mainly local shopkeepers who are maintaining inventories at their shops.
